

## Sustainability Application

So you think you can change the world with one phenomenal idea, right? Great, so do we! Just fill out this simple application and turn it in at the **Student Development Office or an SGA Committee member** before the end of the semester. Applications will be reviewed on a rolling basis.

Here are a few things you should know:

1. The first step in this process is filling out this Sustainability Application. There are members of the faculty and staff on campus that are passionate about sustainability and are willing to help if you have any questions. Their contact information is listed below.
2. You will be asked to set up a meeting with the SGA Sustainability Committee to discuss any concerns or ideas that were not addressed on this application. Then, if we like your idea, you will be asked to attend an SGA meeting to present your request. SGA will then vote whether or not to support your project.
3. Finally, once your project is completed, you will be asked to attend an SGA Meeting to present your finished project. We will be excited to see how you made a difference on campus!

In the space provided, or if needed an additional sheet of paper, tell us your sustainable idea. This requires a little bit of research: How much your project will cost, how long the project will take, and how it is sustainable?

**Describe your idea:**
